New MTSK Tools Save Time and Money!

Dear Steven,

Welcome to the **Spring 2013** MD Tooling Newsletter.

MD

My name is Peggy and I will be communicating all the latest and greatest news and happenings here at MD Tooling. We hope to provide you with content that you find both interesting and valuable.

This is the place we will share exciting new products - like the MTSK Quick Change System featured in this edition. Look for quarterly updates in your email box or go directly to our website to download the latest version of the [newsletter](#).

Communication is a two-way street. so feel free to email me with requests or suggestions for topics you want covered. peggy@mdtooling.com

MD Tooling Expands to Meet Customer Needs

- March 2013: MD Tooling is not only expanding their building footprint but we are also growing their support staff. Wesley McLucas, JR (Wes Jr.) was recruited from the advertising industry; where he had been focused on finding creative solutions for

customers' sales communication needs. Wes Jr. will spend the next several weeks in product training; as well as traveling to customers and distributors in his assigned east-coast regional territory.

- December 2012: Peggy Eizans joined the company in the position of Marketing Manager. Having held marketing management positions in a variety of industries, including automotive, ecommerce, and software development; Peggy brings a unique perspective and knowledge-base to MD Tooling.
- December 2012: MD Tooling expanded to meet the growing needs of our customers. Steven Dehnke and Wes McLucas began construction on their headquarters, doubling their inventory and warehouse space.

New Range of Driven Tools with MTSK Quick Change System

Benefits of MTSK System

- **Reduced overall sizes:** allows more flexibility and greatly reduced set up time.
- **HSK-T standard:** used for the MTSK system delivers a tested and guaranteed taper and face contact.
- **Accurate tool positioning and repeatability:** plus great rigidity and flexibility.
- **No force needed to break taper free:** quick change clamping nut allows modular tool adapter to be easily ejected.
- **Full range available:** ER Collet Chucks, ERA Collet Chucks, Shell Milling Adaptors & End Mill Adaptors.
- **MTSK powRgrip System:** the optimal solution for tool clamping.
- **Only one hand needed:** new anti-rotation wrench increases safety.
- **Sizes Available:** MTSK-63, MTSK-50, MTSK-40 and MTSK-32.
- **Eliminates need for multiple driven tools:** use on any CNC machine

fitted with our MTSK driven holders.

Thank you for reading, I hope you will visit our recently updated [website](#) where you will have access to all of our latest catalogs. I put a quick link to the [catalog](#) page in the right column for your convenience.

Please let us know how we can support your driven and static tooling needs!

Sincerely,
The MD Tooling Team
